

JASMINE MOHAMED HANY

Data Analyst | Business Intelligence | Credit Risk | Data Science

Fifth Settlement, Cairo, Egypt | 0109 210 3645 | jasminehany711@gmail.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Data Science graduate with hands-on experience in credit-risk analytics, Power BI, SQL, machine learning, and portfolio reporting. Built and automated delinquency dashboards for auto-loan portfolios, with additional experience in predictive modeling, computer vision, PostgreSQL optimization, and PySpark.

EXPERIENCE

Souhoola — MIS Analyst

Feb 2026 – Jun 2026

- Analyzed auto-loan delinquency and credit-risk data to identify portfolio trends, patterns, and risk indicators.
- Built and maintained Power BI dashboards tracking 30+ DPD and 90+ DPD indicators for monthly portfolio monitoring.
- Prepared monthly loan data using Excel and pivot tables; segmented merchants/customers by program, employment type, governorate, and car condition.
- Translated business requirements into data visualizations and reports supporting risk monitoring and decision-making.

Tanmeyah — Data Analysis Intern

Sep 2025 – Nov 2025

- Analyzed business data, prepared datasets, and developed reports and dashboards to communicate trends and support decision-making.

CodeAlpha — Machine Learning Intern

Jul 2025 – Aug 2025

- Developed a credit-score prediction model and performed preprocessing, exploratory analysis, feature engineering, and model evaluation.

SELECTED PROJECTS

Power BI Credit Risk & Delinquency Dashboard

Power BI, Excel — Developed interactive dashboards for credit-risk and delinquency monitoring; analyzed 30+ and 90+ DPD indicators and segmented portfolio performance.

Axis Intelligence & Posture Alignment Detection

Python, MediaPipe Pose, TensorFlow, MobileNetV2, TensorFlow Lite — Bachelor thesis computer-vision system for posture analysis using 2D images, preprocessing, augmentation, pose estimation, classification, and lightweight deployment. GitHub ■

Predicting Credit Scores Using Machine Learning

Python, Scikit-learn — Built predictive models using financial and customer-related data with preprocessing, EDA, feature engineering, and model evaluation. GitHub ■

Urban Mobility Analytics / Big Data & NoSQL

PySpark, Spark SQL, Spark ML — Applied large-scale data processing and analytics techniques to a big-data project. GitHub ■

Database Programming / SQL

PostgreSQL, SQL, EXPLAIN ANALYZE — Optimized analytical queries using execution-plan analysis and indexing strategies including B-tree, composite, and partial indexes. GitHub ■

TECHNICAL SKILLS

Data & BI	Python, SQL, Pandas, NumPy, Power BI, Tableau, Excel, EDA
Machine Learning	Scikit-learn, TensorFlow, Spark ML, Feature Engineering, Model Evaluation, Computer Vision
Data Engineering	PySpark, Spark SQL, ETL, Data Processing, Docker, Snowflake
Databases	PostgreSQL, MongoDB, DynamoDB, Cassandra
Programming & Tools	R, Java, C++, JavaScript, HTML/CSS, Git, GitHub, Figma, SAP ERP

EDUCATION

German International University (GIU) — Bachelor of Informatics and Computer Science, Major in Data Science

2022 – 2026 | Bachelor Thesis: Axis Intelligence and Posture Alignment Detection Using Computer Vision and Machine Learning
